Experience	<div>Helena Laboratories</div> <div><div>Software QA Tester05/2019 – 01/2022</div><div>As a software tester, I have outlined, written, and executed test cases for the verification and validation of medical diagnostic software. I have also performed manual testing; including duplicating issues from the field, exploratory testing, describing, and tracking bugs using Helix ALM. I have a working knowledge of Oracle VirtualBox, Hyper-V, IIS, PostgreSQL (through pgAdmin), GIT, SVN, and MS Office; as well as other testing, administrative, and development tools.</div></div> <div><div>Electronics QA Inspector11/2017 – 05/2019</div><div>As an inspector, I operated medical diagnostic instruments according to procedure and inspected them according to parts list and print. I worked in a biohazardous laboratory environment and complied with safe lab practice while in contact with blood and other potentially hazardous materials.</div></div>
	<div>The Computer Shack</div> <div><div>Computer Repair Technician   IT Technician11/2015 – 05/2017</div><div>As a computer technician I troubleshooted, diagnosed, and repaired customers' computers and in-house refurbished systems. I have worked with Macs as well as PCs of various manufacturers, and have resolved hardware and software issues. Through the Computer Shack, I also worked as an IT contractor/consultant for other small local businesses. I created and managed domain networks as well as assisted in the physical installation of servers, Cat 6 cabling, and DVR systems on location.</div></div>

Education	<div>Andersonville Theological Seminary07/2019 – Present</div> <div>I am enrolled part-time in the Associate of Biblical Studies degree program at ATS.</div>
